# SEGUIN PARKS & RECREATION ADVISORY BOARD MEETING

April 7, 2014

City Hall Council Chambers, 210 E. Gonzales, Seguin, TX 78155

5:30 p.m.

## **I. Call to Order.**

Robert McMillan called the meeting to order at approximately 5:30 p.m. in the Upstairs Conference Room at City Hall.

## **II. Roll Call.**

### Members Present

Robert McMillan, Chairperson

Pete Silvius, Vice Chair

Atlee Fritz

Trevor Haas

Jesse Herrera

Tom Bruns

### Staff Present

Jack Jones – Director of Parks & Recreation

Crystal Miranda – Assistant Director of Parks & Rec.

Helena Perez – Administrative Assistant

Lana Urbanek was absent for this meeting.

## **III. Approval of Minutes.**

Tom Bruns motioned to approve the minutes of March 3, 2014. Trevor Haas seconded the motion. The Board approved the minutes with no changes or amendments.

## **IV. Invitation to hear citizen speak ( 5 Min.).**

Beth Raetzsch stated that she wanted to thank the Board Members for including the skate park with the parks bond. She stated that the skaters are excited that they will have their own skate park to enjoy.

There were no other citizens present to speak.

## **V. Presentation and Discussion of the City of Seguin's Parkland Dedication Ordinance, Jack Jones, Director of Parks & Recreation.**

Jack Jones stated that the Planning Department has been working on a comprehensive review and rewrite of the City's Unified Development Code (UDC). The current parkland dedication requirements in the UDC may not keep up with the future growth of the City with parkland dedicated for future subdivisions. Jack stated that he is concerned that the UDC does not require developers to add typical park amenities once the parkland has been dedicated to the City. The current UDC calls for 1-acre of parkland dedicated for every 100 homes. If parkland were dedicated to the City to take cash instead of the parkland, the fee-in-lieu of parkland dedication is \$400 per unit. Jack stated there is currently no park improvement fee-in-lieu-of.

Jack stated that he felt that new subdivision standards should call for developers to dedicate a sufficient amount of parkland to serve the subdivision and add typical park amenities to the dedicated parkland so as not to burden existing residents with funding park improvements for new subdivisions or pay the City fees-in-lieu-of improvements. Jack provided two surveys of what other cities are doing in regards to parkland dedication and Seguin is near the bottom of the list in regards to parkland dedication in comparison to neighboring communities.

City staff recommends upgrading the parkland dedication requirement in the UDC in order to meet the needs of future residents. Bolstering the parkland dedication requirements in the UDC will allow the City to keep up with future growth by providing parkland for new residents while not burdening existing residents with developing and improving parks in new subdivisions.

Discussion:

Robert McMillan, Chair, stated that the City should charge for development, but a realistic amount to promote growth and make it affordable for developers to come in.

Tom Bruns, Board Member, stated that we need to promote quality of life and not just land. Tom suggested that Jack provide further information to review at the next meeting.

Atlee Fritz, Board Member, stated that a neighborhood park is only used by that specific community. Atlee stated that the average in comparison on the chart provided would be \$75 per home.

Pete Silvius, Vice Chair, stated that we need to be at the top of the list as we have been at the bottom in comparison to surrounding cities. He stated that the Board needs to promote to the developers that parkland is important to the City.

As requested by Board Members, Jack will provide a staff recommendation for the Board at the May 5, 2014 meeting.

**VI. Presentation and Discussion of the Walnut Branch: Past, Present and Future, Jack Jones, Director of Parks & Recreation.**

Jack Jones provided a presentation on the history of Walnut Branch: past, present and future.

**VII. Presentation and Discussion of the Overall City of Seguin Park System, Jack Jones, Director of Parks & Recreation.**

Item was tabled for a future meeting.

**VIII. Presentation of Parks and Recreation Activity Report, Crystal Miranda, Assistant Director of Parks & Recreation.**

**Parks & Facilities Update**

- a. Rental Statistics – Crystal reported that there was a 33.57% decrease in park usage for the month of March in comparison to the previous year due to the weather.
- b. Sport Facility Statistics – Crystal reported that there was a 29.16% decrease in sport facility rentals for the month of March in comparison to the previous year. The 2014 Spring League began play on Wednesday, March 12, with a total of 9 teams, reflecting a decrease of 35.71% from the previous fiscal year.

**Programs Update**

- a. JAAM Program - Crystal reported that the JAAM After School Program had a decrease of 3.42% in students attending JAAM for the month of March as compared to last year. Summer Day Camp registration begins on April 28<sup>th</sup> at 7a.m. at the Parks Office.
- b. Upcoming Special Events – Crystal reported that the City is co-sponsoring with Texas Parks & Wildlife and Seguin Outdoor Learning Cent a “Just for Kids Fishin” event to be held on Saturday, April 12, 2014, from 9-1pm. City staff along with the Seguin Leadership class, Navarro students, and Team Depot workers will be painting the building of the Seguin Wave Pool on April 5th & 12th. The Ladies State Chili Cook-off will be held in Max Starcke Park East on Saturday, April 12<sup>th</sup>.

**IX. Adjourn.**

There being no further business, the meeting was adjourned at approximately 6:48 p.m.

## Parks & Recreation

**To:** Parks and Recreation Advisory Board

**From:** Jack Jones, Director of Parks and Recreation

**Date:** May 5, 2014

**Subject:** **Presentation, Discussion, and Possible Action regarding proposed changes to the City of Seguin's Parkland Dedication Ordinance.**

The Planning Department has been working on a comprehensive review and rewrite of the City's Unified Development Code (UDC). One aspect being reviewed closely by staff is parkland dedication. To date, the City has done a good job in acquiring/purchasing parkland to satisfy the parks needs of the community. The City currently has 359.07 acres of parkland.

Seguin is on the verge of growing in population with developers looking to construct new residential subdivisions. The issue going forward is that the current parkland dedication requirements in the UDC may not keep up with the future growth of the City with parkland dedicated for future subdivisions. In addition, the UDC does not require developers to add typical park amenities once the parkland has been dedicated to the City. The current UDC calls for 1-acre of parkland dedicated for every 100 homes/units. If parkland were dedicated to the City, it would be up to the City to fund any park improvements for that subdivision. If it is decided by the City to take cash instead of the parkland, the fee-in-lieu-of parkland dedication is \$400 per home/unit. There is currently no park improvement fee-in-lieu-of.

New subdivision standards should call for developers to dedicate a sufficient amount of parkland to serve the subdivision AND add typical park amenities to the dedicated parkland so as not to burden existing residents with funding park improvements for new subdivisions or pay the City fees-in-lieu-of improvements. Attached are two surveys of what other cities are doing in regards to parkland dedication and improvements. Seguin is currently near the bottom of the list in regards to parkland dedication and improvements as compared to our neighboring communities.

At the Parks and Recreation Advisory Board meeting on April 7, 2014, Board members asked staff to present a recommendation for Board consideration. City staff recommends upgrading the parkland dedication requirements in the UDC in order to meet the needs of future residents by requiring 1-acre of parkland dedication for every 75 homes/units. As proposed, the \$400 per home/unit fee-in-lieu-of parkland dedication would remain the same. In addition, staff recommends implementing a new park improvement component by requiring developers to add typical park amenities to the dedicated parkland at a value of \$400 per home/unit. These proposed changes would bring Seguin in-line with our neighboring cities, but not deter future City residential growth.

Seguin is already known for its parks, in particular Max Starcke Park. With the current upgrades to Manuel C. Castilla Park and the successful Parks Bond Election creating a new park on the west side of Seguin, Seguin will further be known for its dynamic park system. Bolstering the parkland dedication requirements in the UDC will allow the City to keep up with future growth by providing parkland and park improvements for new residents while not burdening existing residents with developing and improving parks in new subdivisions.
